St. Martins, a place of retreat – the first Central European lodge resort's range of services

In the lobby, a fire keeps the guests warm while in the new restaurant, they are served regional dishes inspired by the season and more than 200 types of wine by the glass. In the St. Martins Restaurant, guests can enjoy St. Martins' taste experiences in an entirely new atmosphere. The restaurant area is modern and generously spaced and yet offers many new possibilities for retreat. You can look forward to the new Lake Restaurant with its open-air patio and unique view of Burgenland's Seewinkel region, the St. Martins Restaurant, the winter garden as well as the Martinis Restaurant.

Its 194 rooms, too, underline the lodge resort's ambience. Junior Suites provide open views of the magnificent landscapes of the Seewinkel region and the two Livingstone Suites offer additional private zones of recuperation with their own swimming piers.

As an additional bonus, St. Martins offers free child care: At the RESEARCH STATION, the kids playfully learn everything there is to know about the flora and fauna of the Seewinkel region.

From the region for the region

The 13 municipalities surrounding St. Martins Spa & Lodge are directly involved in it. This turned the entire region into the host of St. Martins Spa & Lodge's guests. "With St. Martins Spa & Lodge, a leading company in the tourism industry has been created by the region for the region," says Klaus Hofmann, Managing Director of St. Martins Spa & Lodge.
